1	<p>CHINA TEXTILE ACADEMY (ZHEJIANG) TECHNOLOGY RESEARCH INSTITUTE CO.,LTD</p> 	<p>China Textile Academy (Zhejiang) Technology Research Institute Co.,Ltd. was jointly established by China Textile Institute and Shaoxing Municipal People's Government in 2005. Focusing on the achievements of independent innovation, it launched six sub brands that can be industrialized, such as "tongnuohu", "bingyunsi" and "Jiumu Tianqing". It also successively introduced five high-tech achievements, such as textile intelligent equipment, special fibers, chemical additives, inspection and testing of China Textile Institute, and realized industrialization in Shaoxing, forming an area of 114 mu with an annual output value of more than 300 million yuan.</p>	<p>Hot Godet,HMLS Hot Godet</p>

2	<p>PUJIANG XIN XIN FILTER COMPANY LIMITED</p> <p>浦江新鑫化纤备件有限公司</p>	<p>PUJIANG XIN XIN FILTER COMPANY LIMITED Pujiang Xin Xin filter company limited was established in 1992. We have imported advanced production and inspection equipment to enhance our effectiveness and improve quality of products. Our Products range from disc filter(single layer, multi-layer, regular and irregular shape), cylinder filter element, pleated filter element, "O" sealing, spin packs and filter mesh. The products are widely used in chemical, chemical fiber and plastic industry.</p>	<p>Filter Elements,Candle Filter Etc.</p>

3	<p>SHAOXING XINCHANG PRINTING MACHINERY TECHNOLOGY CO., LTD</p> 	<p>Shaoming Xinchang Printing Machinery Technology Co.,Ltd is a whole technology company of printing machinery design, pattern design and software hardware development. In the area of digital image engraving, the high-precision engraving machine makes the imitative digital printing match digital printing it gains full recognition in the industry. Main products: LD Blu-ray rotary screen engraver, LD Blu-ray flat screen engraver, laser screen stripper, high-precision Blu-ray flat screen small-stencil machine, flat screen ink-jet machine, digital printing machine, a complete set of SO-sample engraving machine, digital pattern color separation and design.</p>	<p>Laser Engraving Machine, Blu-ray Flat Screen Machine</p>

5	XINCHANG HENGGUAN CO.,LTD	Specializing in the production of all kinds of twister, jet spinning, vortex spinning, printing and dyeing machines and other machining parts, castings, long axis, stamping parts. Can also be customized mold production of various products.	Textile Machinery Accessories

Sr. No.	Company Name	Exhibitor Profile	Product Type
6	XINCHANG JINXING MACHINERY CO., LTD 	<p>Xinchang Jinxing Machinery Co.Ltd. has advanced processing equipment, perfect testing means and strong product development team .Specializing in the production of chemical fiber, staple fiber, all kinds of twisting equipment.</p>	<p>JX318-2 boundless Two-For-One Twister For Short Fibers</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
7	XINCHANG LANXIANG MACHINERY 	Xinchang Lanxiang Machinery Co.,Ltd. is specialized in research and development draw texturing machine,one-step false twister, twisting machine,chenille yarn machine. The company is located in Xinchang Provincial High-tech Industrial Park in Zhejiang.	Texturing Machine, Chenille Yarn Machine

Sr. No.	Company Name	Exhibitor Profile	Product Type
8	XINCHANG WANHE TEXTILE MACHINERY CO., LTD. 	<p>Xinchang Wanhe Textile Machinery Co., Ltd has strong technical strength, self-developed short fiber twister, large volume twister, silk twister, high-speed yarn machine, etc., on the basis of absorbing many advanced experience at home and abroad, combined with practical operation, and constantly improve the performance, so that the company's products more to meet the market demand.</p>	<p>Smart Twisting Machine, Doubling Winder</p>

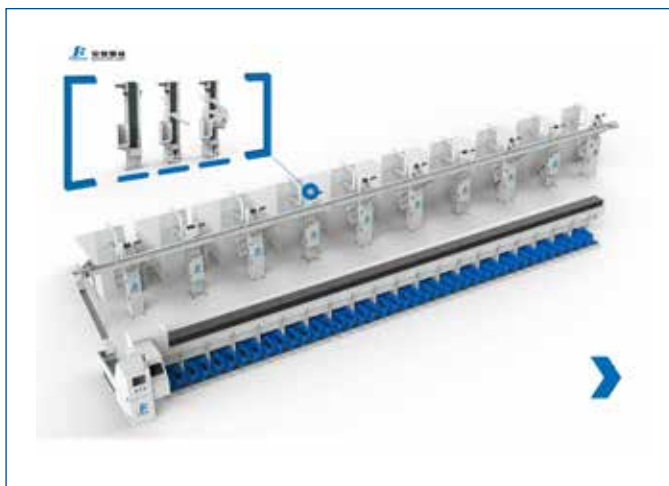

Sr. No.	Company Name	Exhibitor Profile	Product Type
9	<p>XINCHANG WANHENG TECHNOLOGY CO., LTD</p> 	<p>Xinchang Wanheng Technology CO.,Ltd is located in the famous textile machinery manufacturing base in Xinchang County, the company has advanced processing equipment, perfect testing means and strong product development team. Specializing in the production of spindle for textile machinery, such as spindle for covering machine, tfo twisting machine spindle, spindle for winder machine, and other kinds of textile machine part.</p>	<p>Spindle for tfo twisting machine,spindle for covering machine and other spare parts</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
10	XINCHANG WEILITE TEXTILE MACHINERY CO.,LTD 	<p>We are specialized in manufacturing high quality Socks Knitting Machine,6F,7F,8F series fully computerized jacquard socks knitting machine. With 30 years experience, our company has established steady marketing channels in the world due owing to WEKNIT superior quality,competitive price and excellent service.</p>	Sock Knitting Machine

11	ZHEJIANG BAoyao INTELLIGENT TECHNOLOGY CO., LTD. 	<p>Zhejiang Baoyao Intelligent Technology Co., Ltd. (called “Baoyao Intelligent” for short) is a scientific and technological enterprise specialized in R&D, manufacturing digital automation equipment and providing technical engineering service, and is committed to building “unmanned factories” and providing automation solutions for the users. At present, our company mainly develops and produces a series of intelligent products for the textile industry, such as automatic packaging series of cones, bobbin sorting machine series, automatic feeding system of auto-winder, automatic winding and monitoring system of spinning frame, etc.</p>	Bobbin Sorting Center

12	ZHEJIANG DONGXING TEXTILE MACHINERY CO., LTD. 	<p>Dongxing is a technology manufacture specializing in fiber and yarn processing. We work with customers to provide intelligent and practical solutions to help our customers achieve their business goals. Dongxing currently has two major business departments, the machine-make department and the Yarn Processing Business department. The Spinning Division customizes high-quality fiber to yarn automation solutions for customers. The Yarn Processing Division provides customers with solutions for twisting and developing new products.</p>	<p>Doubling Machine, Twisting machine, Winder Machine, False twisting machine, Chenille Machine</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
13	ZHEJIANG JINMA AUTOMATION TECHNOLOGY CO., LTD 	Zhejiang Jinma Automation Technology Co. , Ltd. was established in June 2009, specializing in textile equipment intelligent control system research and development, production, sales and service of high-tech companies, is the daily spinning machine, Titan, Jinggong technology, latitude spinning machine, Zhuo Long and other customers long-term supporting manufacturers.	Chemical fiber double machine control system, Chemical fiber yarn quality monitoring system, Turn cup textile control system

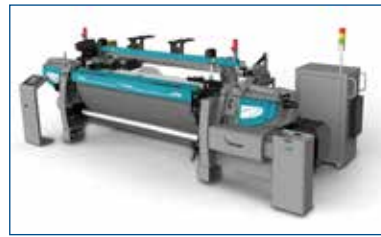

Sr. No.	Company Name	Exhibitor Profile	Product Type
14	ZHEJIANG KAICHENG INTELLIGENT MACHINERY CO., LTD. 	<p>Zhejiang Kaicheng Intelligent Machinery Co.,Ltd. is a national high-tech enterprise dedicated to manufacturing intelligent winders and twisters, and also researching, developing automation control software for high-end textile machinery. We focus on researches in the field of twisting and winding technology, and keep up with international level especially some famous brands from Europe. We are the best choice and replacement for European brands. Kaicheng products are being sold not only in China but are exported to Southeast Asia, West Asia and North-America, Central and South America, as well as Europe.</p>	<p>Kc212 Intelligent Electronic Yarn Precision Winder, kc522 Auto-doff High-speed Precision Winder</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
15	ZHEJIANG KANGLI AUTOMATION TECHNOLOGY CO., LTD. 	<p>Kangli is the leading provider of automation & information solution and the manufacturer of textile machinery control system in China. And the Kangli · Smart Textile Division devote in smart textile, mainly specialize in automation of textile machinery, intelligentization of yarn detection and analysis, IoT and information of textile and so on. Our products and services reach many provinces and cities throughout China, and cover multiple countries and regions in the world. The product design widely applies automation technology, software engineering technology, embedded system, electronic information engineering technology, optical information engineering technology, communication engineering technology, sensor technology, IoT technology and so on.</p>	<p>Smart Factory, Servo Molding Control System for TFO Machine, Assembly Winder Control System, Precision Winder Control System, BLDC Control System, Length Counter, Digital Oiling Device, Yarn Clearing System, Yarn Sensors</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
16	ZHEJIANG TAITAN CO., LTD. 	<p>Zhejiang Taitan Co., LTD. has been committed to the development and manufacture of high-end textile machinery and equipment, and has been developing high-speed, automatic and intelligent high-end textile machines. From 1992, the independent development of chemical fiber, silk twisting machine, filled the domestic blank, has formed the weaving equipment, intelligent spinning equipment, the new twist, automatic winding equipment, modern logistics equipment five series more than 20 varieties, has 15 national scientific and technological achievements and more than 100 independent intellectual property rights, product performance index of main equipment of the same kind equipment has reached the international advanced level, to promote the development of the high-end textile machinery manufacturing industry has made a positive contribution.</p>	<p>Tdn-160 Pneumatic Two for One Twister for Short Fibers, Tcn-20 Two for One Twister for Filaments, Tzl-c30 Automatic Winder, Tsb-38 Doubling Winder, Tqf-k80 Rotor Spining Machine, Tqf-568 Rotor Spining Machine, Tt-828 Digital Hi-speed Rapier Loom, Tt-858 Digital Hi-speed Rapier Loom, Tt-8001 Air Jet Loom</p>

Sr. No.	Company Name	Exhibitor Profile	Product Type
17	ZHEJIANG WANSHIXING MACHINERY CO., LTD. 	<p>Zhejiang Wanshixing Machinery Co., Ltd. is a national high-tech enterprise, committed to the research, development, production and sales of high-end knitting equipment. The company has a number of international leading and domestic innovative glove machine patent technology and advanced product design concept. At present, the company has three main models: intelligent flat knitting machine, intelligent jacquard glove machine, and high-speed glove machine, which can meet the needs of various users.</p>	Jacquard Glove Machine, Flat Machine, High-speed Glove Machine
